**Tennessee Right to Life PAC Endorses Chris Spencer for State Senate  
Based on Shared Commitment and Dedication to Pro-Life Cause**

The state's oldest and largest pro-life organization has endorsed Chris Spencer for TN Senate District 18, representing Sumner and Trousdale Counties. Citing Spencer's demonstrated commitment to defending Tennessee's unborn children, the organization underscored their support. **"Chris represents Tennessee's pro-life values and will be a consistent voice for those who can't speak for themselves,"** said Roger Kane, President of Tennessee Right to Life Political Action Committee.

**"Tennesseans have made great strides in restoring protections for women and their unborn children. Currently, it is estimated that the Human Life Protection Act is saving more than 1,000 women and children from abortion in our state every month. Keeping this law in place has only been possible through the dedication of pro-life legislators. It is imperative to continue to elect to office, those who want to continue this life-saving work",** said Kane. **"There remains much work to do which will require courage and conviction."**

Tennessee Right to Life strongly believes that Chris Spencer will be a positive addition to the legislature and fully endorses his campaign in the 18th District.

We urge every pro-life voter in the 18th Senate District to work and vote for his election.
